

UP CLEAN

Premium disinfectant product

INGREDIENTS:

Potassium monoper sulphate salts 50%.

MAIN FUNCTIONS:

- Disinfection of structures, materials and pond facilities.
- Strong oxidative power.
- Wide spectrum activity against bacteria, fungus, virus, including major shrimp pathogens, and against organic loads in general..
- Supports water management by disinfecting water, oxidising organic matter.
- Due to the unique combination of molecules **UP CLEAN** it's fast acting and harmless for the cultured animals at recommended dosages.
- Easy to use by dissolving in clean freshwater.
- Safe to use once diluted and non toxic at recommended dosages following usage instructions.
- Biodegradable, therefore does not leave residues in shrimp or the environment.

USAGE & DOSAGE:

- Prepare stock solution for direct application or subsequent dilutions:
 - Materials disinfection: 1% (dip disinfection); 0.5% (immersion 20 min)
 - Pond preparation and desinfection under outbreak conditions: 1%
 - Pond water vibrio levels control: 0.5 to 1 ppm (0.5-1 Kg/1000 m²) (5-10 kg/ Hectare) weekly.

For optimal results the product should be used as a part of UP FARM CARE program
